To Whom it May Concern:

I would like to hire someone to prune and treat a large grapevine in my back yard. The vines are @25 years old and they are @75 feet long. I would be interested in having someone all season long treat the vines and care for them as needed. Wages are negotiable and would imagine it would be an hourly type job, that maybe a student might do in their free time. I believe the Spring is the time to prune the vines and they have not been cared for in several years.

My contact information is below. I live in Hartland, MI and would like a phone call by an interested party asap.

Thank you very much.

Sincerely,
Brian Barber
