

Dear Faculty,

I just wanted to send a heads up that Denison Landscaping is still looking for Interns. We currently have 5 internship spots filled in many different areas throughout the company. However, we are still looking for a second intern in our Nursery operations and another student who wishes to rotate in and out of three departments within our organization. These positions are paid hourly and may come with the possibility of housing for out of area applicants. If your students would like more in-depth information, they may contact me at anytime. I would like to send our thanks and congratulations to you the educators on the professionalism and knowledge that your students exhibited at SCD in Atlanta.

Sincerely,
Josh Denison
