Marcus,

There is an opportunity for a student to work in Historic Indian Village caring for and improving the gardens of a small group of sponsoring families. Tasks include weeding, transplanting, cleaning out storage, and vegetable gardening. There could be a few handi-person job like window washing. A strong back will be needed, but the work can be done with determination by any sized, hard working individual. The job pays \$12/hour and the work can start now and will continue through the summer.

Interested students should call Mr. Bracken at 313-331-1638.
