

### **Viticulture and Wine Technology Instructor**

Master's degree required, PhD preferred in Viticulture or related field. Experience with cool season grape and wine production is required. College teaching experience preferred. Responsibilities will include day, evening and weekend classes in Introduction to Wines and Vines, Basic Viticulture Technology, Introduction to Enology, and Vineyard Management, as well as two field experience courses. Applicants must demonstrate coursework in the above listed courses. Additional courses depending on applicant's background may include Soil Science, Introduction to Horticulture, Plant Propagation, Environmental Science or Ecology. The appointee will work closely with groups in the grape and wine industries, and will manage internships and conduct workshops designed to develop specific applied skills in viticulture and wine technology.

Applicants must be committed to excellence in teaching and student advisement. Primary teaching responsibilities for this position will be at the Geneva, NY Extension Center. Compensation will be commensurate with experience (entry level salary is \$43,428). All hires are subject to budget approval.

Review of applications will begin April 5, 2010 and will continue until the position is filled. Interested candidates should apply on or before this date for full consideration, by submitting a cover letter and resume at [www.flcc.edu/employment](http://www.flcc.edu/employment). The cover letter should be addressed to Grace Loomis, Director of Human Resources. **Applications will only be accepted online.**
