About our company:
The Flower Farm is a garden center, flower shop, corn maze, and Christmas store business that was built in 2005 and opened in 2006 by Josh Roggenbuck, a 2005 graduate of MSU Horticulture and his family. We are open year round and produce our own annuals, perennials, vegetable plants, and poinsettias.

Our Mission:
The Flower Farm is a family owned retail garden center providing year-round Horticultural beauty to the residents of Michigan’s Thumb in the form of garden plants, gifts, and information.

Our Vision:
The Flower Farm will provide our friends and neighbors with effects to improve their homes, as well as their quality of life. We will accomplish this by furnishing fine horticultural products and gifts, and by sharing our abundant knowledge and experience with the community. We will establish a reputation as the premier retail garden center in Michigan’s Thumb region. We will be steadfast in gaining the trust of our valued customers, and in maintaining lasting relationships with them.

Internship Opportunity
Would you like to be immersed in the culture of a nearly brand new business and have a first hand role in taking it to the next level? Would you like to be a direct assistant to the owner of such a business and learn the ins and outs of its management? Our 2010 Spring and Summer paid internship might be just what you’re looking for!
Here’s what an intern will accomplish in four months at The Flower Farm:
• Design and build plant and product displays that will change as often as weekly.
• Interact with customers to help them be successful in their horticultural pursuits.
• See how we produce annuals, perennials, vegetable plants, and poinsettias.
• Assist in creating and carrying out special offers and marketing campaigns.
• Help The Flower Farm set and achieve benchmarks for continued growth.
• Have fun and gain experience in a supporting, encouraging family environment!

Qualifications
To be considered for this position, you must:
Have a passion for serving people
Be enrolled and doing well in a college program emphasizing horticulture
Possess a working knowledge of plants and a willingness to learn more about them
Have a creative and constructive imagination
Be available from May to the end of August (includes all weekends in May and June)
