February 11, 2010

Dear Dr. Schutzki,

Greetings!

It has been several years since I have seen you and I hope this note finds you well. I am writing on behalf of Grice's Landscape & Design, LLC and Grice's Tree Farm & Nursery, LLC. The two companies offer a variety of services and specialize in professional landscape design and installation. The full service retail garden center and nursery offer a wide variety of high quality plant materials that are utilized in landscape installations as well as for public purchase. I have worked with Grice's for over 10 years and have been involved with building client relationships, sales, design and construction administration. Through the years we have learned what it takes for success in the industry. We have a clear vision for the direction of the company.

Grice's is positioned to grow. We are ready to build a design-build company that is second to none. **We are focused** —creating, enhancing and protecting the places where people live, work, and play. In my many discussions with Trent Grice, President & CEO, we felt that you were the best person to contact in order to attract new talent. When reflecting on my education while at MSU, I have come to realize the value of your classes and how they have had a profound impact on my professional career. I consider you one of the best professors at the University. I am writing to you because we are seeking dedicated and talented Individuals from your excellent program.

Currently, we are interested in two candidates. We are looking for a talented graduating senior with landscape design and installation experience. This candidate would primarily be involved with the design and construction side of the business. We are also looking for a personable summer intern who has experience caring for plants. This candidate will be responsible for the day-to-day requirements of the garden center and nursery as well as assisting customers in the plant selection process.

Thank you for your time and consideration. If you have any questions or would like to discuss anything further please do not hesitate to contact myself or Trent Grice. I can be reached at 248-736-2734 or mohrshan@hotmail.com and Trent can be reached at 1-877-523-8733 or gricestreefarm@centurytel.net

Best Regards,

SHANNON MOHR
