To: Marcus Duck <duckmarc@msu.edu>

Because of the complete remodeling/rebuilding of our home in Okemos (house fire last March), we have a considerable amount of new garden planning and planting and old garden clean up and reestablishment that we hope to do this spring.

I am looking for a couple of talented and energetic horticulture students who would like to help me with the landscape design, selection of appropriate plantings and re-planting of some new gardens and some very worn out existing gardens (including a small water garden) at our home at 1212 White Oaks Drive in Okemos.

Interested students can reach me at quiring1@msu.edu or on my cell phone at 517-282-3215, or at the work number below.
