---

Dear Marcus,

I spoke with you on the phone late last week about yard services through the MSU Landscape & Nursery program. You mentioned that you have a board where work is posted and students will give estimates. I live in Williamston just east of Meridian road and would be interested in getting estimates for the following work:

- 1) Spring Yard cleanup of last falls leaves;
- 2) Fix lawn, including areas of moss and little growth due to shade;
- 3) An overgrown garden area that needs "field mowing" and restore to grass;

If anyone is interested in the work described above, I can be reached at 517-881-5994.

Thank-you,

Jean Halm
