To: Marcus Duck <duckmarc@msu.edu>

We are looking for a student(s) who would be interested in a landscape re-design project who has extensive plant knowledge and who has creative design ideas. We have large existing landscape areas with existing plants that need to be redone including: possibly adding fresh soil, adding new weed barrier, adding new plants or removing/moving/rearranging existing perennials, shrubs and ornamental grasses. This would be a great before/after project for a new landscape designer's portfolio.

Price/wage is negotiable.

The home is located on the NE side of Grand Rapids, near the E.Beltline and 5 mile area.

Contact Erik at: 616-540-9717.
