---

Marcus,

The irrigation job for the summer will be 40 hrs/week ( from finals week to the first week of fall classes ), from 6:00 am - 2:30 pm. During the spring ( April to May )when we start up ( about the first week of April ) the student can work a minimum of 12 hrs, then as soon as they are done with school, they can start working 40hrs/ week.

Please e/mail Danny Jacques at [jacques@pplant.msu.edu](mailto:jacques@pplant.msu.edu) (517- 490-0551 ) for any questions regarding the student irrigation position.

Take care,

Jim K.
