

Part-time Job as an Undergraduate Greenhouse Assistant in Floriculture Research Program

Available Immediately

- ◆ Excellent opportunity to gain working knowledge of greenhouse operation and production of diverse greenhouse crops.
- ◆ Great opportunity to learn about floriculture research.
- ◆ The candidate will work closely with other team members, including undergraduate and graduate students.

Duties will include but will not be limited to: watering and plant care, maintaining photoperiod, media testing, potting plants, stock plant maintenance, propagation and data collection.

Occasional weekend duty would be necessary.

Salary: \$8.00/hr
