---

Syngenta Student Scholarships in Potato Growing Areas.

The scholarship is open to high school seniors and college students pursuing a career in agriculture who reside in or attend school in Colorado, Idaho, Maine, Michigan, North Dakota, Oregon, Washington, or Wisconsin.

The \$5,000 scholarship is available to students involved in the potato-growing industry. The applicant should be or have been previously involved in 4-H or FFA and plan to be involved in the potato-growing industry.

A 350 word essay explaining how the potato industry could maximize its resources to meet the growing demand for food, feed, and fuel is required.

Scholarship applications must be submitted by September 15, 2010. For additional information and to apply to the scholarship online go to

[www.SyngentaPotatoScholarship.com](http://www.SyngentaPotatoScholarship.com)
