Zylstra Greenhouses is located in Kalamazoo, Michigan and has been established and growing since 1988. We are a progressive annual grower specializing in young plant production and finished production. We currently produce on 16 acres of growing area at 5 facilities and were ranked #25 in 2010's *Greenhouse Grower, Top 25 Young Plant Growers*. We pride ourselves on shipping premium finished material to independent garden centers and landscapers. We do not grow for box stores. Zylstra Greenhouses participates each year in the Michigan Garden Tour where Ball / Selecta First Class are highlighted.

We are currently looking for a graduating student or an alumnus who is interested in production floriculture. This position entails growing both young plants and finished material year round. The successful candidate will be responsible for

- Watering
- Pesticide treatments and recording
- Plant growth monitoring and PGR applications
- Monitoring pH and E.C.
- Shipping when needed

This position is a hands on position and we would very much like to train and develop the correct person. We need a candidate who is not afraid to work long hours when needed. This position would require working weekends and holidays as needed. The successful candidate must be willing to get his/her restricted use pesticide license in the State of Michigan within 60 days of hiring.

At Zylstra Greenhouses we strive to develop empowered employees who are positive individuals willing to learn. We offer a highly competitive wage, 401K, health insurance, paid vacation and personal days. Compensation for this position will commensurate with experience. Interested candidates can email their resume and cover letter to btroost@zylstragh.com
