

**Barkman Landscaping** is a Landscape Contractor in Davison, Michigan that has been serving clients since 1987. We are a design/build contractor that installs and services residential and commercial landscapes in South East Michigan. Our client base consists primarily of high end residential renovations including water features, extensive paving and retaining projects, outdoor kitchens and entertainment areas, as well as general plantings, bed work, irrigation and outdoor lighting.

We are currently seeking candidates for a variety of positions. We highly value education for all of our employees, so higher education in addition to industry related certification such as CGIP, ICPI, Pesticide Applicator Licenses, etc is welcomed. All candidates must have a valid Driver's License with a good driving record and must be able to pass a pre-employment drug screen. Please e-mail resumes to [employment@barkmanlandscaping.com](mailto:employment@barkmanlandscaping.com) for further consideration.

**Landscape Crew Member-** Crew Members work as part of a 3 person crew installing or maintaining landscapes. Candidates must be able to lift heavy objects and work outdoors in all weather conditions. A Class A CDL or the ability to obtain one is preferred.

**Landscape Crew Leader-** This is the forward position in the field. This person is considered a working Supervisor and is responsible for the daily operations of a 3 person crew, including job set-up, paperwork and actual installation. Candidates must be able to lift heavy objects and work outdoors in all weather conditions. A Class A CDL or the ability to obtain one is preferred.

**Landscape Superintendent-** This person is responsible for the day to day operations of all landscape crews, including but not limited to scheduling, material ordering, managing crews, HR, and equipment maintenance. A Class A CDL, Horticulture Degree and industry certifications are strongly preferred.

**Landscape Designer-** This position consists of meeting with clients, measuring, designing and estimating landscape projects of all sizes. We design using solely DynaScape, an AutoCAD based system. Candidates should be proficient with DynaScape and have a Horticulture or Landscape Architecture degree.
