

Bayer CropScience Friends of Richard F. Stroud Memorial Scholarship
College of Agriculture and Natural Resources
Michigan State University

1. A \$2,500 scholarship is offered annually in the College of Agriculture and Natural Resources or College of Natural Sciences. Students from the following areas of study will be eligible:
 - Plant Pathology
 - Crop and Soil Sciences
 - Entomology
 - Food Science and Human Nutrition
 - Forestry
 - Horticulture
2. The Award is made in the junior or senior year of a candidate's academic program, by March 11, 2011.
3. To be eligible for the scholarship, the candidate must have a grade point average of 3.0 or better, and have taken, or plan to take, two of the following courses:
 - Disease and Insects of Forest and Shade Trees
 - Food and Animal Toxicology
 - General Nematology
 - Insects: Success and Biodiversity
 - Introductory to Plant Pathology
 - Management of Turf Grass Pests
 - Pest Management (I,II)
 - Principles of Weed Control
 - Topics in Toxicology

The candidate should have experience or anticipate gaining experience in one of the areas of study (listed above) which deals with a special problem, a field problem, laboratory work, or a work internship. This experience is to be associated with some aspect of pest control and/or food or feed quality.

4. Candidate applications will be reviewed and the final selection made by the Field Development Manager of Bayer CropScience, or their designate, after consultation with Michigan State University Advisors.
5. The scholarship award will be deposited with Michigan State University as indicated in this guideline.
6. Applications for the scholarship should be returned to Dr. Richard Brandenburg, Associate Dean, Academic and Student Affairs, 121 Agriculture Hall, East Lansing, MI 48824-1039. The application deadline is March 1, 2011.
