Hello Marcus,

I'm the Horticulturist for the City of Midland and I'm writing today to see if you could post a job opening opportunity for your students with the City of Midland's Horticulture Program. We have extensive landscaping and horticulture projects throughout our city and each year I hire 11 temporary employees starting April 1 to help maintain it all. In 2007 I had two interns from the Horticulture program but at this time I feel the job would be a better resume builder than an internship.

The job openings I have available are for Seasonal Horticulture Laborers.

Job duties include but are not limited to:

Spring Cleanup
Spring Planting Bed Preparation
Annual and Perennial Planting
Pruning
Mulching
Weeding
Watering
General Landscape Maintenance
Fall Bulb Planting-Approximately 12,000 bulbs

I would love the opportunity to offer the students interested in Horticulture a position to gain hands-on practical knowledge in the field. Please let me know what additional information you need from me and I look forward to hearing from you soon.

Thank you!

Stephanie Szostak
City Horticulturist
