From: "Merker, Tim" <Tim.Merker@chemicalbankmi.com>

I am looking for an intern or summer employee to help me this summer in establishing my cranberry farm here in southwest Michigan. I started this project last year and will finish planting it this year. I am employed full time off the farm, and the main duty of the intern/employee will be to monitor and run the irrigation system Monday through Friday during the day, with additional duties in helping plant and maintain the plants, and to keep records. I am flexible in structuring the position either as an internship, or as summer student employment. Hours would be 30-40/week. I can supply room and board, but the candidate would have to have a vehicle to get to the farm, which is 5 miles from my house. I live on a lake, so the candidate would have access to water sports and live in a family atmosphere if they choose to accept room and board. Please direct/post this inquiry to where it will do the most good. I can be reached at home (269-657-5736) in the evenings or on my cell (269-330-2583) during the day. Thank you.
