

*Fine Gardens Since 1919*

## **Residential Landscape Architect/Garden Designer**

Lambert's specializes in creating award-winning residential site designs from the scale of a multi-acre estate to that of an intimate urban courtyard garden. Our design team has a passion for being an integral part of the design process with our clients commencing at conceptual design to the final implementation.

We are currently seeking designers that share this philosophy and take an active interest in all facets of site design including: designing collaboratively with clients and fellow designers, developing illustrative drawings, producing project details, creating engaging plant compositions, and working closely with our skilled in-house construction team both at the office and out in the field.

Candidate should have:

- A degree in Landscape Architecture, plus 2-5 years of residential landscape architecture design experience.
- Excellent communication skills and a proactive nature
- Knowledge of regional plant material
- Familiarity with basic construction practices
- Proficiency in AutoCAD, and experience using both digital media (Adobe Suite & Sketchup) and hand-graphics to produce presentation-quality illustrative documents.
