A newly established Greenhouse business in the Southfield area is currently seeking an Assistant Grower.

Prior greenhouse growing experience is preferred. Candidates must possess a willingness to learn, a positive attitude, good communication and organizational skills, and an ability to work co-operatively with others. Salary will be based upon qualifications and experience.

The position will report to the Head Grower and will involve:

Routine check for watering and sanitation of the crops.
Scouting for insects, diseases and any other physiological disorders
Involved in all the aspects of production from sticking cuttings to packing the product.
Spraying the crop with plant growth regulators and chemicals
Work flexible hours, evenings and weekends
Interact/communicate with a dedicated, knowledgeable, friendly grower team

If you are a positive talented team player with the right qualifications, please forward your resume to : lavinflowerland@yahoo.com
