

Summer Research Aide:

Needed for field (planting, weeding, data collection), greenhouse (planting, watering, general maintenance), and lab work (dishes, autoclaving, seed cleaning etc.). 30-40 hrs/wk. Fields are located at MSU Horticulture Farm south of campus and lab is in the PSSB building. If student can work 2-5 hrs/wk in April/May they would also be involved in the determination of the optimal conditions for cucumber disease screening. \$8.50/hr. Contact Sue: hammar@msu.edu.
