

Mission Garden Planner Needed

For the first time last year, Crossroads United Methodist Church of Williamston planted a garden to provide vegetables to local area food banks, as a mission project. We got a late start because of the long wet Spring, and we were not very well organized or planned, but we still managed to furnish about 1200 lbs of fresh produce to the food banks.

We want to do better this year!

Unfortunately, while we have many people who are very willing and able to do the work involved, we simply lack someone who is knowledgeable to help us plan the garden and organize the workers. We are hoping to find a grad student who might be interested in taking on the challenge of a project like this, for experience or as a service project, as we cannot afford to pay much (if anything more than gas). We really need the help, and so many people in the area really need the food! If you are interested in being a part of this humanitarian effort, please contact Sandie Litchfield (in CSS), litchfi9@msu.edu, or call (517) 449-1802.

Help us Help them!
