Marcus,

I am a graduate of MSU and I am currently working at The University of Michigan. We hire temporary students in the summer time (May to September) to work with Horticulturist on Campus. These spots fill quickly in March, if you have any students that might be interested they can contact me by e-mail and I can forward it to the other Horts. The work consists of cleaning hardscape, planting, weeding, pruning, etc. Let me know!

Thank You!

Paul Eminger

Sr. Horticulturist
