To: Marcus Duck <duckmarc@msu.edu>

Design Build Landscape company in Petoskey, Michigan looking for a creative, energetic associate who is not afraid to take on a challenge or work outside their job description.

4 year degree is a plus but we are willing to look for a talented landscape architect in the 2 year program as well.

Strong design, problem solving, and high level computer/ AutoCAD and/or Rivet skills are required. Sketch up and hand rendering experience is a huge plus. Project and construction management will be another large component of this job. Experience in those areas is a plus but not required.

We are a young aggressive company fortunate to be in a high-end residential niche, looking for a self-motivated associate to grow with us.

Donn Vidosh Jr
