Looking for a student worker to care for our numerous gardens and offer general horticultural advice. The gardens were originally created by a master gardener which we inherited when we bought our home. Unfortunately I know nothing about gardening and have little time to invest caring for them. Hours are completely flexible but will ask that you come a few hours a week. Starting pay is $8.00. We live in Okemos near the corner of Van Atta and Newman road. If interested, please contact Maureen Schaefer at 502-298-5872 or Schaefer.maureen@gmail.com.
