I am looking for a student, or students, that might be interested in doing some side work at my home in East Lansing. Initially, we need to have several overgrown areas cleared out and, if there is any interest in continuing the project, some improvements made as well.

We would obviously provide necessary materials and would also need to get an estimate from you for the labor. If there is anyone who might be interested in a project of this type please call me at 517/402-1754. I would love to use resources from the University if possible. Thank you.

Sincerely,
Victoria Gallo
