Dear Colleague,

I am writing to you directly in the hope that you will distribute information to faculty and students about a new summer internship we are offering at the National Gallery of Art. Here is the description:

**Horticultural Services**

The intern’s time will be divided between daily overall horticulture operations and the preparation of a history of horticulture at the National Gallery. The intern will work on the Gallery’s exterior landscapes and interior “plantscapes,” including the greenhouses. He or she will also help the deputy chief of horticulture finalize a new manual on the history of horticulture at the Gallery. Proficiency in Microsoft Word and excellent writing and editing skills are desired. Current graduate students in horticulture and 2013 undergraduates are invited to apply.

For more information about our summer internship program, including application guidelines and forms, please direct faculty and students to our Web site, [http://www.nga.gov/education/internsumm.shtm](http://www.nga.gov/education/internsumm.shtm). If you have further questions, please do not hesitate to contact us.
