HELP WANTED

Witt's Organic Gardens, and Ivan Witt Forestry Consulting, located in Gaylord, MI, are seeking an energetic individual to assist in activities related to all phases of certified organic market gardening, from seedling production and hoophouse management to small scale field production thru harvest and direct sales marketing. Additionally, the position offers seasonal diversity with work in maple syrup production (March-early April), reforestation tree planting (April-early May), and possibly assisting in laying out commercial timber harvesting projects. This position is an opportunity to broaden one's knowledge of these fields and to delve into a lifestyle of living off the land in the 21st century. Candidate must be in good physical condition and willing to work outside in all weather conditions. Position is part time to full time (and sometimes more) depending on season; flexible hours. Ideal candidate will have a positive attitude, be flexible, be willing to learn a variety of skills, and have good work ethics. Wage dependant on skills and experience.
