Horticulturist

Carmel Country Club

Charlotte, NC

Carmel Country Club is a member owned 36 hole golf facility in Charlotte, North Carolina that was built in 1947. The club consists of two championship golf courses, clubhouse landscape, tennis facility, and large resort style swimming complex. Over the years Carmel has been very active in capital upgrades with more planned in the future.

The horticulturist is responsible the design, planting, purchasing, installation of all landscape beds and associated lawn areas at the clubhouse, pool, and tennis complex. The horticulturist will work with the Director of Greens and Grounds to see that all departmental goals are met to Carmel CC’s standards. The position is required to supervise, train, and motivate employees to complete the daily tasks in a sufficient manner. The horticulturist is expected to work within an assigned budget to achieve the company goals. The position will work cooperatively with the Director of Greens and Grounds, Golf Course Superintendents, Equipment Technicians, and staff to provide the highest quality conditions.
