Land Visions is a reputable company which has been established since 2002. We are excited to be launching a gardening division this spring and are looking for positively motivated individuals who possess existing gardening or plant knowledge.

There are currently 2 openings for this hourly-paid full time position. It runs between the months of April- November, with shifts typically during the hours of 8am to 4 or 5 pm. Many of our current employees simply apply for un-employment throughout the winter months in this type of position. No benefits. Must have endurance for working outdoors and battling the forces of nature. One should be able to lift at least 50 pounds and be willing to safely manage gas powered tools to complete tasks.

The role of a gardener at Land Visions, Inc., is to practice all forms of garden maintenance with utmost professionalism, efficiency and accuracy. Job tasks will include the creation and maintenance of planters of varying sizes, incorporation maintenance & design of annuals & perennials into existing landscapes, revitalization of existing mature or over-grown landscapes, corrective pruning, spring and fall cleanups for garden beds, weeding, trimming, natural edging, mulching, dead heading.

Above all else, individuals must be willing to work hard, have a good attitude and willingness to learn. Training is available if someone is unfamiliar with plants. Driver’s license isn’t required, but preferred; and chauffeurs is even better.

My interview assesses the applicants’ existing knowledge of plants and may even include a quiz. Thank you for considering this company for your place of work.
