Student Greenhouse Help Wanted

Seeking students for the care, cleaning and maintenance of Michigan State research greenhouses. Immediate openings and summer help wanted.

Responsibilities include but are not limited to:

- Stocking potting stations
- Aid in the structural maintenance of the greenhouses: building and installing of lights, replacing of shutoff valves, fixing of vents, etc.
- Sweeping and hosing of hallways
- Organization of tools, tool rooms and barn
- Weeding of hallways and other outside locations.
- Maintenance of cooling pad systems

Employee may perform other related duties to meet the ongoing needs of the organization.

Requirements:

- Must be enrolled at Michigan State University
- Employee will be required to work some weekends
- Valid driver license

Other Skills/Abilities:

- Pesticide license desired, but not required. Willingness to obtain one is a plus.

Interested applicants submit a resume to Caila Bulkowski at bulkows2@msu.edu or request a job application and return it to 1059 Farm Lane, Room 108.
