Landscape Foreman:

R&D Landscape is a premier landscape design/build and maintenance company operating throughout Mid-Michigan since 2001. We are a fast growing and highly reputable company offering a well-compensated position with great potential for future growth.

Position overview:
An experienced landscaper able to work with minimal supervision. This position requires teamwork and will direct the activities of two or more team members. The landscape foreman must be enthusiastic, personable, detail-oriented, honest, reliable, and self-motivated. Must be able to safely operate a variety of equipment and have a working knowledge of horticultural practices and construction techniques. The landscape foreman will be responsible for safely and efficiently producing quality landscape construction and maintenance services that meet or exceed the standards of clients and management. Landscape foreman will also be an integral part of the R&D Landscape snow and ice management system in the winter.

Essential Responsibilities:
Responsibilities consist of working with the designer and project manager to implement multiple landscape projects from beginning to end including: deliveries, site work, hardscaping, planting, lawns, and water features. Must be able operate skid steers, mini excavators, plate compactors, gas saw, etc.

Knowledge and Experience:

- High school diploma or GED, plus a minimum of three years experience in the landscaping field required.
- Working knowledge of grading, drainage, landscape supplies, and plant material.
- DOT Medical Card and Chauffeur License.
- Strong oral and written communication skills, math skills, minor technology skills, job planning skills, and mechanical aptitude is a must.
