J.R. Simplot Company Meet and Greet

Maggie McCormick
Recruiter - Plant Sciences

Timothy Carroll
Associate Transformation Scientist

Wednesday, January 28, 2015
12:00 PM

1030 MPS Building

Biotechnology, molecular, pathology, transformation, biochemistry, and biology students Join us for PIZZA and a chance to learn more about the J.R. Simplot Company and our internship and new grad career opportunities!
All,

My colleagues and I will be visiting MSU the week of the career fair on the 29th of this month, representing the JR Simplot company’s Plant Sciences division. We will be hosting a pizza party event to interface with students the day before the career fair.

At Simplot Plant Sciences, we are working with some exciting new technologies and we are looking to fill a number of positions. We are hoping to speak to students about our technologies, projects and employment opportunities.

The pizza party event at 1030 Molecular Plant Sciences and the MPS Atrium, from 12pm – 1pm on Wednesday, January 28.

If you would, please tell any and all students and student groups who you think may be interested or who might benefit from attending.

Please let me know if you have any questions. Thank you very much.
