Aquascaping Internship

About AWM Water Features

AWM Water Features is the premier water feature specialist in West Michigan (Grand Rapids Home Office). We install and maintain a variety of water features including ponds, pondless waterfalls, bubblers, fountains, and rainwater harvesting systems. We are Certified Aquascape Contractors and follow the very highest standards in the industry. In July 2009, we became the very first Certified RainXchange Professionals in Michigan. Join our team and learn an invaluable skillset in the landscaping industry!

Position Overview

- Hands-on seasonal internship. Hourly full-time position.
- Typical hours 8 a.m. - 5 p.m. Monday through Friday, although hours may vary.
- College credit available.

Position Requirements

- Responsible and dependable.
- Excellent teamwork skills.
- Physically fit. Able to lift 50+ lbs.
- Desire for excellence.
- Ability to use tools, vehicles, and equipment appropriate for landscape builds.
- Experience with loaders and/or excavators a plus.

Responsibilities

- Installation of water features under direction of Foreman.
- Regular maintenance of water features.
- Completion of a number of projects including any of the following; marketing material creation and distribution, event coordination, and data collection and analysis.

To Apply

Experience in installing water features is an invaluable skillset in the landscaping industry. Many large landscaping companies are lacking employees that have been trained properly in the art of water feature creation. Get the experience you need to set yourself apart from all the rest!
