Desired Start Date: to be determined  
Hours per Week: up to 40 hours, flexible scheduling, half day Saturday or Sunday  
Duration: late spring through early fall to fit in school schedule  
Location: Charlevoix, MI

Castle Farms is looking for a self-motivated student or graduate who enjoys working outdoors and talking with visitors. The job entails planting annuals in gardens and containers with the Castle Farms team, and maintenance such as pruning, deadheading, weeding, watering containers and inspecting plants for insects and diseases. Customer service is important. Visitors sometimes have questions about the gardens or the property and the goal of our team is to be friendly, informative, and helpful.

Castle Farms has five acres of gardens on a sixty acre historic property. Individual gardens range from formal, to whimsical, including wedding courtyards, roses, outdoor garden trains in a hedge maze, an alphabet garden, fountains, streams and ponds, an enchanted forest, a new fruit orchard, and a natural white birch forest.

We welcome new ideas to improve our gardens and gardening efficiency. Please visit our website www.castlefarms.com.

To apply, contact the owner, Linda Mueller linda@castlefarms.com.
