The horticultural intern assists the fleurdetroit team with the day-to-day care and ongoing development of our landscape projects. Interns will assist with regular horticulture maintenance duties such as planting, watering, weeding, and pruning.

Special projects are typically added to an intern’s regular duties so that they can practice project management skills needed to see a project through from start to finish. Projects vary greatly and are determined on an individual basis. They may include everything from record-keeping, garden design, corporate projects and maintenance of installed projects.

Interns should be prepared to work outdoors in varied weather, including rain and heat. The work is physically demanding and interns must be able to lift at least 30 pounds, as well as stand, bend, kneel, and reach throughout the day.

Horticultural internships are open to anyone interested in a career in horticulture, with preference given to those pursuing a degree or who have completed a degree in horticulture, or a related field.

fleurdetroit is currently unable to host international interns who are not lawful aliens.

The duration of the internship is from three to six months. The workweek is 40 hours and is Monday through Friday, with occasional Saturdays required. Housing is the responsibility of the intern.

Please visit fleurdetroit.com for more information and email tiffany@fleurdetroit.com with your resume if you’re interested.
