Peas come down in July - then the cucumbers can climb up the same trellis - this photo was taken in August
tied using hemp twine - real cool - but sure takes a long time
Tomato trellis constructed with 8” zip ties
Bamboo at angle for a bit of extra sturdiness
Peas and tomatoes in late June
2009 - even larger design!
More ideas for trellises - 2009 - MSU Horticulture Gardens
Beans on trellis - Heligan vegie gardens - Cornwall, England
A farm garden in Britain
Madevilla vine covering compost bin
British gardens are the ultimate! Check out the trellis and the soaker hose for watering.
This just looks cool to me
The Netherlands
Gourds on trellis in Thailand
Bangkok Botanical Gardens
